# BEFORE STARTING.

Go to settings on your infotainment system and make sure that your vehicle is **sharing its data and position**.

Sharing vehicle data is **necessary for your connected services** to work.

Make sure that the **latest updates** are installed on your infotainment system.

If a software update is available, you may also see a pop-up or notification asking you to install.

You can also check on your infotainment settings to find the latest updates.

# 1 CREATE YOUR ACCOUNT.

Shortly prior to vehicle delivery, you will receive an email from PEUGEOT to start your activation.

Click on the email link to go to the **Peugeot Services Store**.

Add your personal details.

And accept the Terms & Conditions.

Check your inbox, open the confirmation email and click on the button to activate the account.

Now your account is active.

If you followed the initial email from PEUGEOT upon your vehicle delivery and you already created or logged into your account, you'll find Connect ONE already active.
For electric or plug-in hybrid vehicles, additional activation steps are required.

If you did not receive an email, easily **create your account from the MyPeugeot app**. Once you install it, add your personal details, then your **Vehicle Identification Number (VIN)*** and mileage.
